

Information Item: 14-04 Summary of Draft 2014 303(d) List

Explanation:

DWR is currently accepting public comments on the 2014 303(d) list, a biennial Clean Water Act requirement. The 303(d) list identifies waters that do not meet water quality standards and require development of a total maximum daily load (TMDL) or other restoration plan. Staff will review assessment methods used to develop the 303(d) list, and provide a summary of results, as well as changes between 2012 and 2014.
